Juvenile officers have a unique role, not only in enforcing laws but also in responding to family problems in a compassionate and effective manner. Their position requires them to act as protectors of youths and society as a whole by investigating criminal acts for findings of “delinquency and in supporting youths in growing out of adolescence” without experiencing the stigma of police involvement.

This online, web-based training program has been designed by NEMRT, along with experts from the fields of juvenile law, social work, and law enforcement, to provide newly-assigned or promoted juvenile officers with the skills, knowledge, and behaviors needed for success in the position.

Officers who take this web-based course and pass the examination given at the end of the mandatory review session will be Illinois state-certified Juvenile Officers - just as if they had attended a traditional classroom training course. To gain access to the web-based program, departments must have purchased the program through NEMRT. Access to the program can be acquired by contacting Lisa Seeman at 630-896-8860, Ext 105. Departments who have previously purchased a Juvenile CD from NEMRT in the past, already have access to the online program.

Individual officers will then be able to log in and review the course materials online through our website at [www.nemrt.com](http://www.nemrt.com)

Departments are to register their officers for the review/test date as listed in the catalog. The review session is conducted by an instructor prior to administering the test.

OFFICERS MUST HAVE VIEWED THE ONLINE COURSE CONTENT PRIOR TO THE REVIEW/TEST DATE. Officers also must attend the mandatory review/test date in order to receive certification.

If your officer has not completed the online portion by their registered review/test date, please contact NEMRT directly.

**Civil Rights, Constitutional Use of LE Authority, Legal Updates**

The Advanced Roadside Impaired Driving Enforcement program was developed by the National Highway Transportation Safety Administration with input from the International Association of Chiefs of Police Technical Advisory Panel and the Virginia Association of Chiefs of Police. ARIDE was created to address the gap in training between Standardized Field Sobriety Testing and Drug Evaluation and Classification Programs.

This course will offer additional information to law enforcement officers on detecting impairment caused by more than just alcohol. Often law enforcement officers who have not received advanced or in-service training regarding drug impairment tend to not be able to identify these characteristics and oftentimes release impaired drivers. Once an officer completes this training, he/she will be more proficient with the 3 battery of tests (HGN, WAT, OLS), and will have a broader knowledge of drug impairment indicators. Students will also become more familiar with the DRE program and its function, thus facilitating better communication and transfer of critical roadside indicators of impairment to the evaluating DRE officer for a more complete and accurate assessment of impairment.

ARIDE is a 16 hour training course taught by DRE instructors or SFST instructors who are also DRE's. The training will be conducted under the control and approval of the DEC Program state coordinator.

This course encompasses information and techniques for addressing the drug and alcohol impaired driving problem. Much of the classroom training will be devoted to hands-on practical exercises.

The following topics will be addressed:

- Update of the Standardized Field Sobriety Testing Battery
- How drug impaired driving affects our communities
- SFST Proficiency Examination
- Drugs in the human body and the impairing effects they may have
- Seven categories of drugs identified by the DEC Program
- Additional sobriety tests that will provide an expanded knowledge of detection to law enforcement
- Enhanced prosecution of drug impaired drivers

This course has been certified by the Illinois Law Enforcement Training and Standards Board. It is not reimbursable by the ILETSB.

This course will be taught by: Various instructional teams.

Critical incidents involving mass shootings and active shooter situations have presented law enforcement and other public safety agencies with challenges involving command structure, communications, and coordination. The aim of this course is to increase the basic knowledge of first responders - regardless of rank or experience - so that they are able to act effectively and efficiently during a critical incident. Through the use of NIMS and ICS terminology and practices, students will review standardized responses that will increase cooperation and understanding between law enforcement agencies, as well as other disciplines of public safety, including Fire and EMS.

Students will review After Action Reports and actual dispatch communications from past incidents to determine which steps taken were correct and which could have been better based upon the principles outlined in class. They will review the ICS structure and learn how to systematically build a command structure that will reduce confusion on scene. Finally, practical radio drill scenarios in which students assume different roles within the ICS structure will be conducted to ensure proficiency in the skills discussed in class.

While not a mandatory requirement, it is suggested that students enrolling in this class have completed NIMS ICS-100 and ICS-200 courses.

This course seeks to gain voluntary compliance without the use of force and is based on crisis intervention team models used by established police teams operating in some U.S. cities. The scenario-based practical exercises conducted during this course would benefit any line officer as well as officers who may have some crisis negotiation training but need more experience.

- Building rapport, paraphrasing and using emotional labeling
- Active listening for the emotions of persons in crisis
- Influencing behavior using reflective statements
- Safety, cover, and containment issues
- Developing non-threatening body language, words, and silence

The phenomenon of the school shooter in our schools is at an all-time high. With the advent of depression, bullying and suicidal tendencies as a result, first responders in our schools and police departments must be trained to handle these situations with immediacy and great sensitivity. The goal MUST be to identify and intercept the criminal activity before the school shooter is able to take action. There are times when a student presents an incident of rage and a wanton disregard for human life by conspiring to make themselves famous through death and destruction. However, many students, school administrators and/ or LEO minimizes the comments and postings of the school shooter. We often train our youth "If you see something, say something." It is what Schools and Law Enforcement do with that information that may predict the outcome. The reason why LEO's and School Officials continue to "brush off" the student is due to the lack of training and understanding of Social Media and Internet Investigations. This class will train the School administration and Law Enforcement on the protocols set forth in dealing with this type of school violence.

The goal of this training is to empower school administrators and Law Enforcement how to gather digital evidence against the aggressor so they may find out who the perpetrator is and take action immediately after the comment or posting is made by the aggressor. The LEO and/or School Administrator will learn the fundamentals of investigating social media and internet related crimes that deal with domestic terrorism. We will use the Electronics Communications Privacy Act (ECPA) to our advantage in identifying the person responsible for posting the online threats BEFORE the shooter has the opportunity to kill our children.

This course will be taught by: Richard Wistocki, Be Sure Consulting Inc .

Unless otherwise indicated, cancellations must be received by NEMRT 7 days prior to the beginning of a course in order to avoid being billed for that course. Exceptions will be noted where applicable.

The following conditions were established through the cooperative efforts of the Board and North East Multi-Regional Training, Inc. It is your responsibility to read these conditions thoroughly and adhere to all of them. These include:

1. Report to training as instructed by your Chief, Sheriff, or Training Officer
2. Safety regulations of the range, weapon conditions, and ammunition use will be directed by the Range Master and his assistants.
3. The Range Master will instruct and enforce strict regulations for safe handling and use of weapons at all times. Anyone who endangers the safety or well-being of others will be ejected from the premises. This includes horseplay, carelessness, or any other inappropriate behavior.
4. You must bring your own weapon, ammunition, and required equipment. The Range Master and his assistants will not provide, repair, or replace any equipment. Please make certain all equipment is in proper working condition.
5. Classroom instruction is held in the evening. You are required to bring notebooks, pens or pencils. *DO NOT BRING WEAPONS OR AMMUNITION TO CLASSROOM SESSIONS.*
6. Range instruction is held on Saturdays and Sundays. You are required to bring the following to the range:
  - a. Service weapon in safe firing condition
  - b. Duty holster
  - c. 550 rounds ammunition (factory or reload)
  - d. Eye and ear protection
  - e. Shotgun in safe firing condition
  - f. Appropriate clothing for outdoor range (depending on class location)
  - g. Cleaning kit for your service weapon
  - h. Bag lunch or money to purchase meal

State statute requires successful completion of this training BEFORE you can legally carry a weapon while performing law enforcement duties. Successful completion is achieved with at least a 70% on the written examination and 70% on each of the two qualification shooting rounds. Re-testing for a failed written examination or a failed range qualification will be handled in accordance with the policies of the Illinois Law Enforcement Training Standards Board.

Care and use of your weapon is a serious matter. You are required to conduct yourself in a professional manner at all times during this training program.

# REGISTRATION INFORMATION

---

## *Pre-Registration*

NEMRT courses are filled on a first-come, first-serve basis, based upon the Pre-Registration forms we receive. Typically, our courses quickly fill to capacity. Once a class has reached its capacity of students, "Stand-By" lists are created.

Students on stand-by lists may not attend our programs. All students must first be confirmed by our Registrar's office. After receiving confirmation, students may attend the training program, where they complete an actual registration form. Confirmation and stand-by lists are distributed weekly by the Registrar.

Please keep in mind that courses fill quickly. Pre-register your students early!

## *Attendance Policy*

The Illinois Law Enforcement Training and Standards Board (ILETSB) requires that all attendees of a course for which they will receive a certificate from the Board be present for 90% of the course. For example, one must be present for 36 hours of an ILETSB-certified 40 hour course. NEMRT has adopted that policy for all of its training programs, allowing attendees to miss no more than 10% of any course, with a legitimate excuse (family emergency, need to appear in court, reassignment, etc.) and still receive a NEMRT certificate.

## *Cancellations*

When we receive a cancellation, students are moved from the stand-by list to fill the vacancy. We then notify your training officer that the student has been moved from stand-by and confirmed to attend the program.

Occasionally, training officers fail to notify us that an officer will be unable to attend. When this occurs, students on the stand-by list are denied an opportunity to attend the training they need.

To avoid this situation, please contact the Registrar's Office as soon as possible regarding schedule conflicts and cancellations. With this information, we are able to move officers from stand-by lists and into course rosters. This increases both the number of officers receiving training and the overall effectiveness of your training dollars.

Please note in the *Course Description* section the statements about cancellation deadlines and billing for each class. Usually, the deadline is 7 days prior to the start of the course unless otherwise noted.

## *ADA Accommodation*

If your student is covered under the Americans with Disabilities Act, please notify Deputy Director Chuck Ghiloni at (630) 896-8860, ext.103 to establish reasonable accommodations.

## *Questions?*

If you have questions regarding confirmation or stand-by policies, please contact our Registrar's Office at (630) 896-8860, ext. 102.

# **Part Time Training Info**

## Basic Part-Time Law Enforcement Officer Training

In accordance with Public Act 89-170, all part-time sworn police officers in the state of Illinois are required to successfully complete a Basic Part-Time Law Enforcement Officer Training Course. North East Multi-Regional Training, Inc. is offering a choice of two different basic training academies to fulfill the requirements of this act. *The tuition shown below for each of these academies is eligible for reimbursement through the Illinois Law Enforcement Training Standards Board.*

### Web Based Academy

Through the efforts of the Illinois Law Enforcement Training Standards Board, the ILETSB Executive Institute, and the Center for Applied Internet Technology (CAIT) at Western Illinois University, the STTAR program has been redeveloped and updated to deliver part-time basic training in a cutting-edge distance learning format using the internet.

Approximately 212 hours of instruction are delivered via the internet, allowing students to choose the times most convenient for them to independently complete an average of seven hours of training per week through the internet. This training is supplemented with eight-hour classroom sessions conducted on Saturdays, where the students receive lectures from instructors who are experts on the subject matter, and to participate in performance-based practical exercises.

This program, with the addition of the 40 Hour Mandatory Firearms Training course, meets the 560-hour curriculum for law enforcement basic training. In total, the program takes approximately 9 months to complete.

**Scheduling of the next WEB Academy is awaiting development/approval of a new Basic Academy curriculum by the ILETSB.**

**Tuition: \$1,100.00**

***Due to substantial changes being made to the academy curriculum by the Illinois Law Enforcement Training and Standards Board, we cannot set a date for our next offering of the Web-Based Academy.***

---

**Students are required to successfully complete the P.O.W.E.R. test to enroll in the Web Based Academy. NEMRT offers the P.O.W.E.R. test prior to the orientation for each program. There is a \$35.00 fee to take the test. No POWER tests are currently scheduled.. All POWER testing will be conducted at the Crestwood Wellness and Recreation Center in Crestwood, IL.**

---

The 40 Hour Mandatory Firearms course is not included in the Web Based Academy. Therefore, we have arranged a special firearms course reserved for those part-time officers enrolling in the academy who have not yet been certified. Tuition for the course is the standard in-service tuition of \$175.00. Please indicate on the pre-registration form those officers who are enrolling in both the academy and the firearms course. The dates for this course will be announced.

***Contact Bill Collins, Basic Training Manager (Tel: 630-896-8860 ext. 108, Email: [bill@nemrt.com](mailto:bill@nemrt.com)), for required enrollment paperwork.***

# **Consulting Services**

# **CONSULTING SERVICES**

This course catalog reflects the training needs of agencies throughout our membership. However, we realize that your department may also have unique, sudden, or critical training needs that may not be addressed among these courses. We also realize that you may not have the time or resources necessary to develop customized, high-quality training programs. To meet these unique needs, NEMRT staff is available to develop In-House programs.

## ***Customized Training***

In-House programs provide customized training, designed exclusively for your department's needs and scheduling demands. They can be a valuable means of meeting your departmental training goals effectively and efficiently.

NEMRT staff will develop your curriculum, contract with instructors, compile handouts, process registrations, and issue training certificates. Many area departments have taken advantage of this valuable service. In fact, NEMRT develops over 200 In-House training programs a year!

## ***Standard Curriculum***

Some agencies have used In-House programming not only for customized curriculum, but also to deliver our standard in-service programming to their entire departments. A partial list of these In-House courses includes:

- Verbal Judo
- Courtesy and Diplomacy for Non-Sworn Personnel
- Laws of Arrest, Search and Seizure
- Hazardous Materials Refresher
- Horizontal Gaze Nystagmus
- Essential Spanish for Police

## ***Additional Information***

If you have any questions about our In-House programming services, please call Michele Bou-Sliman, Program Manager for Special Projects, at (630) 896-8860, x118. Michele will be happy to discuss your needs and provide valuable training alternatives.

# THE ASSIST PROGRAM

The Illinois Law Enforcement Training Standards Board administers the Intergovernmental Law Enforcement Officers In-Service Training Act (P.A. 82-674). This Act, coupled with the Traffic Surcharge and Criminal Conviction fund, provides the structure and financial support for a unique state\local partnership. This partnership provides decentralized delivery of in-service training within commuting distance of virtually every law enforcement and corrections officer in the state.

On Jan. 1, 1983, The Illinois Law Enforcement Training Standards Board launched A Statewide System of In-Service Training, known as the ASSIST Program. Within five years, the Mobile Team Unit conducted over 7,000 courses for over 120,000 in-service practitioners. The ASSIST Program has since gained national recognition as one of the most cost-effective and comprehensive in-service training systems in the United States.

The objectives of the program are:

- To encourage local law enforcement and corrections officers to upgrade their knowledge, skills, and techniques pertinent to the law enforcement profession
- To provide local law enforcement officers with training opportunities within their own locales and on flexible schedules
- To provide quality training on topics of instruction centered on specific training needs

# NEMRT MEMBERSHIP

**Annual membership in North East Multi-Regional Training will be \$95.00 per full-time officer.** In addition to payment for all full-time officers, members may select from three payment options to tailor training for their civilian, reserve, part-time, and auxiliary officers:

1. You may pay for all full-time, part-time, reserve and auxiliary officers, and civilians within your total membership at \$95.00 per individual.
2. You may pay for all full-time officers and only a specified number of your total civilian, reserve, part-time, and auxiliary officers. The number chosen is entirely up to you.
3. You may pay for full-time officers only and pay non-member tuition fees for those classes attended by your civilian, reserve, part-time, and auxiliary officers.

As an added benefit, members employing more than 125 full-time officers need only pay for the first 125 officers. This maximum membership fee of \$11,875.00 entitles all full-time officers, not merely the first 125, to unlimited training through North East Multi-Regional Training for the membership year. Membership fees would still need to be paid for any part-time, reserve, or civilian employees you wish to include.

Occasionally, courses are offered that require tuition from member and non-member departments alike. These fees arise from the special equipment that may accompany the course, or from the expense arising from bringing in an out-of-state expert for timely courses of a technical nature. However, member department tuition fees are typically lower than a non-members.

# MEMBERSHIP CATEGORIES

NEMRT's voting membership consists of municipal and county law enforcement agencies whose units of government have voluntarily signed an Intergovernmental Agreement, or have passed a Resolution and Adoption of existing Intergovernmental Agreements, which establishes "NEMRT, INC." as a mobile team in-service training unit. Member departments are invited to the Annual Election of Directors, held on the third Tuesday of March, to cast their votes.

Member department Intergovernmental Agreements are self-renewing and do not require annual processing unless membership is dropped for more than one year. Then the Agreements will be addressed as a new membership again.

Non-voting member departments are federal and state law enforcement agencies who are eligible to participate in regional law enforcement in-service training under the Illinois Intergovernmental Law Enforcement Officers In-Service Training Act, but are precluded from signing an Intergovernmental Agreement due to the structure of their governing rules. In such cases, department administrators may contract with NEMRT, Inc./Mobile Team Unit #3, to allow their law enforcement personnel to participate in the Region's in-service training efforts at an annual rate established by the NEMRT, Inc. Advisory Board. Non-voting member departments are precluded from serving on the Board of Directors or voting on matters that affect NEMRT, Inc./Mobile Team Unit #3 operations, policies, and/or procedures.

Non-member departments are federal, state, and local law enforcement agencies that decline formal membership in the ASSIST Program. They remain eligible to participate and attend in-service training under the In-Service Training Act, but are required to pay tuition as listed in the course descriptions. Non-member agencies are billed for attendance after the completion of each course.

# **Computer-Based Training**

## ***40 Hour Juvenile Specialist Program - Web Version***

NEMRT is pleased to offer a web-based Juvenile Officer Program. You and your officers can choose the time, place and pace at which they learn, and bring their training right to the desktop! This program has been thoroughly reviewed and certified by the Illinois Law Enforcement Training and Standards Board.

This Distance Learning web based training program has been designed by NEMRT, along with experts from the fields of juvenile law, social work, and law enforcement, to provide newly assigned or promoted juvenile officers with the skills, knowledge, and behaviors needed for success in the position.

Juvenile officers have a unique role, not only in enforcing laws but also in responding to family problems in a compassionate and effective manner. Their position requires them to act as protectors of youths and society as a whole by investigating criminal acts for findings of "delinquency and in supporting youths in growing out of adolescence" without experiencing the stigma of police involvement.

Officers who take this web based course and pass the examination given at the end of the mandatory review session will be Illinois state certified Juvenile Officers just as if they had attended a traditional classroom training course.

You may register your officer for an examination date and time as you would for any NEMRT course. Registrations can be submitted via fax or made on line at [www.nemrt.com](http://www.nemrt.com). Please note: Access to the web program must be purchased prior to examinations being taken.

This course will be taught by: Cmdr. Brian Galske, Chicago Ridge Police Department.
